

Ognjen Tomic

Scientific researcher

I believe that perseverance and hard work are the two main factors that have led me to achieve success in my life so far. I have registered and protected two intellectual property solutions based on demo programs with the Republic of Serbia Intellectual Property Office. I have an optimistic attitude, both professionally and personally. After graduating from ITS Comtrade, I decided to continue my education and enrolled at MEF Faculty, as I am dedicated to continuous professional development. I am eager to apply the knowledge and skills I have acquired in a new work environment. I completed my master's studies with a protective intellectual project and was awarded a distinguished scholarship for my PhD studies.

WORK EXPERIENCE

SCIENCE RESEARCHER

Lola Institut Ltd [↗](#)

09/2023 - Present

Belgrade, Serbia

System Administrator - Wordpress specialist

Megatrend University [↗](#)

02/2022 - 02/2023

Belgrade, Serbia

Informatics teacher in primary school

Primary school "France Prešern" [↗](#)

09/2021 - 11/2022

Belgrade, Serbia

Smart Start Software Ltd

Founder [↗](#)

12/2018 - 02/2020

Belgrade, Serbia

I would like to explain what my Application does. SMART-START is a DEMO program I developed in 2018. It communicates with databases of Business Registers Agency of Serbia and Statistical Office of the Republic of Serbia. Based on analysis of the data shared by mentioned Government agencies, Smart Start application creates a report which recommends a suitable location within Belgrade, where it's most profitable to start a small Business. My colleague and I, participated in the most prestigious State of Serbia competition, called: "The Best Technological Innovation". The average project rating was 4.5 / 5 with 22nd place of 4160 ideas.

Achievements/Tasks

- Participation in two State competitions: "The best technological innovation (NTI)", and "The economic forum of young people (PFM)"

EDUCATION
